Client's

Perspective

We think from the client's perspectives

Trust

We respect the importance of trust

Quality

We offer the highest quality service

Client's

Opinions

We listen to client's opinions

I've wanted to create a business consulting firm for a while now. In my past 30 years of experience, I've noticed that entrepreneurs often face the same problems when stabilizing and growing their businesses. I assembled the OneHub team to offer a comprehensive solution for all issues a startup or SME could encounter.

We created a unique business consulting firm in Markham designed for immigrant entrepreneurs, students, and SME business owners to deepen their understanding of the business world. We have a structured program and the facilities to

provide the essentials that will strengthen your road to success. We add value to your organization and help you prepare for business development and expansion.
