# A message from OneHub's CEO.

**EDDIE LEE**  
CEO

I've wanted to create a business consulting firm for a while now. In my past 30 years of experience, I've noticed that entrepreneurs often face the same problems when stabilizing and growing their businesses. I assembled the OneHub team to offer a comprehensive solution for all issues a startup or SME could encounter.

We created a unique business consulting firm in Markham designed for immigrant entrepreneurs, students, and SME business owners to deepen their understanding of the business world. We have a structured program and the facilities to provide the essentials that will strengthen your road to success. We add value to your organization and help you prepare for business development and expansion.

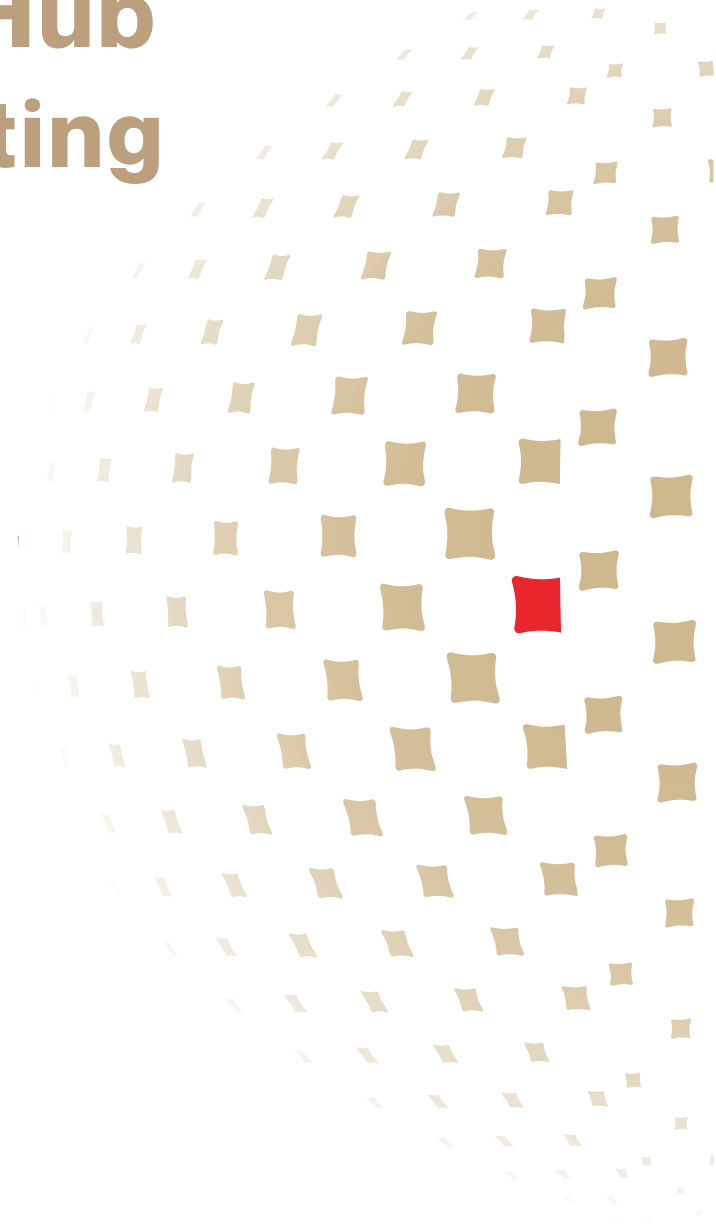

# Welcome to OneHub Business Consulting

## Our Mission & Vision

To facilitate and develop businesses in fulfilling their potential by bringing people, processes, and performance together under a holistic framework.

We create unique solutions to empower business owners to attain their next level of unparalleled success.

- We use the client's language to serve
- We respect the client's confidentiality
- We think from the client's perspectives
- We respect the importance of trust
- We offer the highest quality service
- We listen to client's opinions

**“OneHub is simply  
the ultimate place for  
business owners.”**

# We help your business produce.

---

**OneHub Business Consulting is an industry leader, delivering innovative, effective, and results-driven business solutions. As a leading consulting firm in Canada, OneHub partners with the industry's best to create opportunities for business owners. # OneHub's capabilities for how we help your business

- 
- Strategic Management
  - Business Transformation for Local Companies
  - International Companies settlement in Canada
  - Digital Transformation
  - Franchising
  - E-commerce & Supply Chain
  - Operations for HR & Finance
  - Legal, Licensing, Certifications
  - Professional Development
  - Pilot Program for Startups

# Strategic Management

Strategic management is a necessity in all working environments. Changes in businesses often require an assessment of the strategies used to meet the goals and objectives of the company. Implementing strategic management increases the competitiveness of your company in the market.

Essentially, strategic management involves the efficacy of managing staff and resources to achieve company objectives.

- ✓ Strategy Evaluation
- ✓ Internal Organization Analysis
- ✓ Strategy Execution
- ✓ Business Plan & Financing
- ✓ Mergers & Acquisitions
- ✓ Government Grants & Loans
- ✓ Wages Subsidies

# Business Transformation

Business transformation is essential to survive in a largely competitive market. Our business transformation service helps local and international businesses to refresh into a more mature, strong, and sustainable company. Companies from overseas seek our services to help the settle in Canada.

Business transformation should be a top priority for every business as they endure in the “business life cycle”. We help your business in the various stages that are:

- Planning
- Formulation
- Implementation
- Business Development
- Mature Stage

*In Memory of  
Simon Ho*

*President of  
Forward Signs*

# Digital Transformation

Certified Digital Advisor

CANADA DIGITAL ADOPTION PROGRAM

## What we are out to solve:

Most small companies have a limited understanding of “Digital Transformation” initiatives. True digital transformation is an organizational process, and one can bring about maximum impact only when everybody in the organization is empowered to participate. Worse still, lack of awareness and guidance, aging systems, and disconnected solutions limit companies’ ability to address their customers’ expectations.

## OneHub difference:

OneHub understands that SMB consulting must be a different ball game altogether. Our methods are original and time-tested, and we’ve put together strategies and action plans that are highly effective in creating low-cost, high-impact solutions for SMBs. OneHub believes that digital is the most effective leverage an SMB can get and designs digital-centric solutions.

We have built frameworks and strategies that enable a smooth transition or amalgamation of the existing IT and digital infrastructure of the SMBs.

## Our mission & methods:

The purpose of OneHub, through the CDAP program, is to empower SMBs to their full business potential through digital transformation. Over the years, we’ve built expertise and competence in engaging with SMBs, and we know everything that SMB consulting is ‘NOT’. Large corporations looking to bring about change and transformation do so by engaging other large consulting companies who tackle one vertical at a time, eventually bringing about Enterprise architecture framework redesign.

# Franchising

Franchising is an excellent opportunity for you to grow your business. To have strong financial performance and a replicable business model is indispensable.

OneHub Business Consulting provides you with the necessary tools, support, and connections to allow your business to open a franchise. We can also help you find franchisees and financing opportunities.

We work closely with the top 5 banks. Don't forget we can also provide back-office support for your franchise.

# E-commerce & Supply Chain

eCommerce is the future of retail. Statistics have indicated that in 2020, there were over 150 million people who shopped online for their first time. The number of eCommerce consumers are expected to grow in the next few years. With the increase in demand for eCommerce, it's expected that companies will have to enter the digital space to continue to compete.

As a Canadian business consulting firm, OneHub assisted SF International in establishing and setting up its operations in Canada. To further help SF International to expand the courier business in Canada, we are now providing courier services to Asia, including Mainland China, Hong Kong and Taiwan.

OneHub Business Consulting provides you with the tools to successfully develop an eCommerce business from the website & social media to “pick & pack” fulfillment logistics and warehouse management.

# Operations

Daily operations are vital in gaining and sustaining a competitive advantage, but it has never been more challenging. When you run a SME with limited time and resources, the last thing you want to do is divert your attention from the core business that's your bread and butter.

We can help you manage your operations, from human resources to finance.

- Payroll processing
- Health & benefit plan management
- Administration
- Talent & recruiting
- Bookkeeping
- Supply chain & Fulfillment
- Quality control
- Procurement

# Legal, Licensing & Certifications

A business is not complete without the legal, licensing, or certification aspects. We can help you incorporate your business in Canada.

- Incorporate Provincial (Ontario), Federal (Canada), and overseas
- Non-profit Organization Incorporation
- License your business
- Certifications
- Health Canada
- ISO (International Organization for Standardization)
- ASTM International
- Certifications

- CAMSC (Canadian Aboriginal and Minority Supplier Council)
- FDA (Food and Drug Administration)
- Corporate Secretary Management
- Ontario Made

# Professional Development

OneHub professional development programs are designed to optimize learning experiences and increase your strength to outperform. Our programs increase competitiveness and performance.

We provide courses that can be funded by Canada-Ontario Job Grant (COJG).

We specialize on skills set development in the following areas:

- Design thinking and applications
  - Intellectual property positioning
  - Strategic interview skills
  - Entrepreneurs development
- Self-awareness and self-branding
  - Effective business interpersonal skills
  - High impact presentations
  - Strategic conversation selling
  - Customer centric thinking and application
  - Critical thinking and applications

# Pilot Program for Startups

If you want to start a business, then OneHub Business Consulting is the right place for you. We can help your ideas come to life, by providing you with the necessary support to begin your dream.

This would include the various stages of the business life cycle from Planning to the Mature stage.

# Social Responsibility

We value the importance of committing to give back to the community. As part of our commitment to social responsibility, we empower people to overcome societal and individual barriers to employability and financial stability to optimize their growth across their lifespan through our non-profit organization, OneHub Growth.

## Our Four Pillars

Pillar 1	Career Advancement Program
Pillar 2	Skills Development Programs
Pillar 3	Community Well Being & Social Services
Pillar 4	Public Learning Workshop

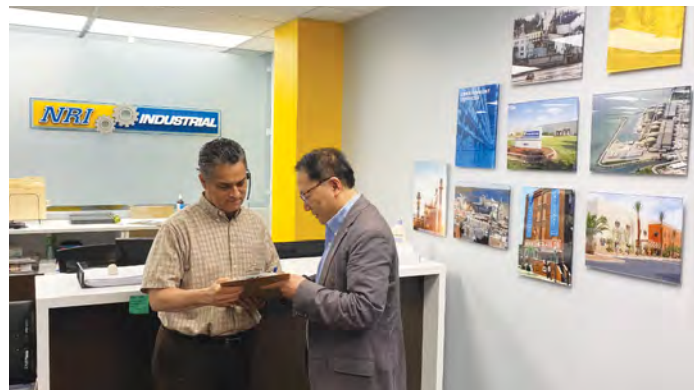

**We provide service  
to several dozens of  
clients in different  
industries.**
